A place of sharing fellowship and learning

We're doing our best too!

Nara Co-op Heiwa Library was established in October 2019. “Heiwa” means “peace” in Japanese. This place has existed as a base of activity, to record the dropping of atomic bombs on Hiroshima and Nagasaki, and memories of the war in Nara Prefecture. We will devote ourselves to pass on these painful experiences to future generations. And we will be sure that it makes for the accomplishment of peace.
